

Diving - Umbilical Cables

Umbilicals International (UI) holds in stock a comprehensive range of purpose built underwater cables for use separately, and also integrated into diving umbilicals. All cables feature flexible, fatigue resistant constructions and tough, abrasion resistant polyurethane outer jackets.

Alongside these standard products, custom designed cables can also be supplied to suit particular application/customer requirements; please contact UI for further details.

Part Number	Description	Cross Section
CDR010411	Diver reinforced comms cable 2 x 20 awg screened pairs, braided strength member Red polyurethane jacket Diameter 0.433" (11 mm) Breaking Strength 1100 lbs (500 Kgs)	
CDX010308	Hat light/ Power cable 3 x 16 awg power cores, Orange polyurethane jacket Diameter 0.315" (8 mm)	
CDX010710	Basic Video Cable 1 x 22 awg screened quad, 2 x 16 awg power cores 1 x mini RG59 coax Orange polyurethane jacket Diameter 0.433" (11.0 mm)	
CDX010811	Video Cable 1 x 20 awg screened pair, 1 x 24 awg pair 1 x 16 awg screened pair and single 16 awg core 1 x mini RG59 coax Orange polyurethane jacket Diameter 0.440" (11.8 mm)	
CDR011611	Video Cable 16 x 22 awg core 1 x RG59 coax Braided strength member Orange polyurethane jacket Diameter 0.43" (10.9 mm)	
CDX010609	3 Pair Signal cable 3 x 20 awg screened pairs, Black polyurethane jacket Diameter 0.34" (8.6 mm)	
CDX090813	4 Pair Signal cable 4 x 20 awg screened pairs, Red polyurethane jacket Diameter 0.480" (12.2 mm)
